WorldCat® Digital Collection Gateway

A self-service tool for uploading the metadata of your digital content to WorldCat

A worldwide repository providing integrated access and increased visibility

“The Gateway is an important tool for the Clark to broaden the visibility of its collections. From there we have created WorldCat lists and have also tied in online interactive communities such as Facebook and other Web 2.0 tools.”

Penny Baker, Collections Management Librarian
Sterling and Francine Clark Art Institute
The more libraries, the more content, the more visibility

And that is what we want.
